

ROYAL BOTANIC GARDENS, KEW.

BULLETIN

OF

MISCELLANEOUS INFORMATION.

APPENDIX II.—1907.

NOTE.

IN the preface to the *Catalogue of the Library of the Royal Botanic Gardens*, which was issued as Volume III. of the *Additional Series* of the *Kew Bulletin*, it was stated that annual lists of future additions would be published in the *Bulletin*.

The present instalment contains the additions made to the Library by gift or purchase during the year 1906, with the exception of such current periodicals and annuals as continue sets already catalogued.

Like the *Catalogue*, the List is printed on one side of the page, to allow of its being cut up. It is probable that many persons and institutions will make the *Kew Catalogue* the basis of their own, and will use the lists of additions to supply printed slips for fresh titles.
